Subject index

Volume 60 (2001)

Adhesion molecules; Term neonates; Selectins **60**, 149

Antenatal steroid; Placenta previa; Preterm infant; Respiratory distress syndrome **60**, 215

Antenatal therapy; Betamethasone; Doppler velocimetry **60**, 225

Behavioural problems; Development; Developmental care; Mother–child interaction; Very low birth weight **60**, 123

Betamethasone; Doppler velocimetry; Antenatal therapy **60**, 225

Birth weight; Fetus; Ultrasonography; MRI **60**, 171

Body size; Sunlight; Month-of-birth effect; Development; Cohort; Pre-natal **60**, 35

Breast milk feeding; Preterm human infant; Very low birthweight **60**, 193

Breast milk; α-Linolenic acid; Linoleic acid; Intermediate chain-length fatty acids; Serum phospholipids; Fulani; Nigeria **60**, 73

Cerebral blood flow; Nitric oxide synthesis; Severe hypoxia-ischaemia; Newborn lambs **60**, 159

Cohort; Sunlight; Month-of-birth effect; Development; Pre-natal; Body size **60**, 35

DNA; Placenta; Protein; Water; Diabetes **60**, 207

Developmental care; Behavioural problems; Development; Mother–child interaction; Very low birth weight **60**, 123

Development; Behavioural problems; Developmental care; Mother–child interaction; Very low birth weight **60**, 123

Development; Sunlight; Month-of-birth effect; Cohort; Pre-natal; Body size **60**, 35

Diabetes; Placenta; DNA; Protein; Water **60**, 207

Digit sucking; Non-nutritive sucking; Pacifier use; Morbidity **60**, 137

Doppler velocimetry; Betamethasone; Antenatal therapy **60**, 225

Fetal distress; Fetal heart rate variability; Power spectrum analysis; Fetal metabolic acidosis **60**, 233

Fetal heart rate variability; Fetal distress; Power spectrum analysis; Fetal metabolic acidosis **60**, 233

Fetal metabolic acidosis; Fetal heart rate variability; Fetal distress; Power spectrum analysis **60**, 233

Fetus; Ultrasonography; MRI; Birth weight **60**, 171

Fulani; α-Linolenic acid; Linoleic acid; Intermediate chain-length fatty acids; Breast milk; Serum phospholipids; Nigeria **60**, 73

PII: S0378-3782(00)00132-8

Hand function; High-risk preterm infants; Neurological development; Posture; Motility **60**, 101

High-risk preterm infants; Neurological development; Posture; Motility; Hand function **60**, 101

Human ovary; Morphometry; Normal/growth-restricted fetuses **60**, 179

Hydatidiform mole; Molar change; Mole formation; Pregnancy **60**, 1

Infant; Premature; Non-nutritive sucking; Sucking; Ontogenesis **60**, 13

Intermediate chain-length fatty acids; α-Linolenic acid; Linoleic acid; Breast milk; Serum phospholipids; Fulani; Nigeria **60**, 73

Linoleic acid; α-Linolenic acid; Intermediate chain-length fatty acids; Breast milk; Serum phospholipids; Fulani; Nigeria **60**, 73

MRI; Fetus; Ultrasonography; Birth weight **60**, 171

Molar change; Hydatidiform mole; Mole formation; Pregnancy **60**, 1

Mole formation; Hydatidiform mole; Molar change; Pregnancy **60**, 1

Month-of-birth effect; Sunlight; Development; Cohort; Pre-natal; Body size **60**, 35

Morbidity; Non-nutritive sucking; Pacifier use; Digit sucking **60**, 137

Morphometry; Human ovary; Normal/growth-restricted fetuses **60**, 179

Mother–child interaction; Behavioural problems; Development; Developmental care; Very low birth weight **60**, 123

Motility; High-risk preterm infants; Neurological development; Posture; Hand function **60**, 101

Neurological development; High-risk preterm infants; Posture; Motility; Hand function **60**, 101

Newborn lambs; Nitric oxide synthesis; Severe hypoxia-ischaemia; Cerebral blood flow **60**, 159

Nigeria; α-Linolenic acid; Linoleic acid; Intermediate chain-length fatty acids; Breast milk; Serum phospholipids; Fulani **60**, 73

Nitric oxide synthesis; Severe hypoxia-ischaemia; Cerebral blood flow; Newborn lambs **60**, 159

Non-nutritive sucking; Infant; Premature; Sucking; Ontogenesis **60**, 13

Non-nutritive sucking; Pacifier use; Digit sucking; Morbidity **60**, 137

Normal/growth-restricted fetuses; Morphometry; Human ovary **60**, 179

Ontogenesis; Infant; Premature; Non-nutritive sucking; Sucking **60**, 13

Pacifier use; Non-nutritive sucking; Digit sucking; Morbidity **60**, 137

Placenta previa; Antenatal steroid; Preterm infant; Respiratory distress syndrome **60**, 215

Placenta; DNA; Protein; Water; Diabetes **60**, 207

Posture; High-risk preterm infants; Neurological development; Motility; Hand function **60**, 101

Power spectrum analysis; Fetal heart rate variability; Fetal distress; Fetal metabolic acidosis **60**, 233

Pre-natal; Sunlight; Month-of-birth effect; Development; Cohort; Body size **60**, 35

Pregnancy; Hydatidiform mole; Molar change; Mole formation **60**, 1

Premature; Infant; Non-nutritive sucking; Sucking; Ontogenesis **60**, 13

Preterm human infant; Breast milk feeding; Very low birthweight **60**, 193

Preterm infant; Antenatal steroid; Placenta previa; Respiratory distress syndrome **60**, 215

Protein; Placenta; DNA; Water; Diabetes **60**, 207

Respiratory distress syndrome; Antenatal steroid; Placenta previa; Preterm infant **60**, 215

Selectins; Term neonates; Adhesion molecules **60**, 149

Serum phospholipids; α-Linolenic acid; Linoleic acid; Intermediate chain-length fatty acids; Breast milk; Fulani; Nigeria **60**, 73

Severe hypoxia-ischaemia; Nitric oxide synthesis; Cerebral blood flow; Newborn lambs **60**, 159

Sucking; Infant; Premature; Non-nutritive sucking; Ontogenesis **60**, 13

Sunlight; Month-of-birth effect; Development; Cohort; Pre-natal; Body size **60**, 35

Term neonates; Selectins; Adhesion molecules **60**, 149

Ultrasonography; Fetus; MRI; Birth weight **60**, 171

Very low birth weight; Behavioural problems; Development; Developmental care; Mother–child interaction **60**, 123

Very low birthweight; Breast milk feeding; Preterm human infant **60**, 193

Water; Placenta; DNA; Protein; Diabetes **60**, 207

α-Linolenic acid; Linoleic acid; Intermediate chain-length fatty acids; Breast milk; Serum phospholipids; Fulani; Nigeria **60**, 73
